CONDITION OF THE MARKETS

THEO. P. HAUGHEY, Pres's H. LATHAM. Cach

Increased Interest in Wheat, but a Feeling of Nervousness Still Prevails.

A Good Business in Corn, Accompanied by a Stronger Feeling and a Higher Range of Prices-Provisions Dull but Strong.

MONEY, BONDS AND STOCKS. An Intensely Dull Market, Subject to Slight

Spurts of Animation. NEW YORK, June 1 .- Money on call was sasy at 11 02 per cent., the last loan being made at 14, closing at 11@2.

Prime mercantile paper, 406 per cent. Sterling exchange was quiet, but steady, at \$4.864 for sixty-day bills and \$4.882 for demand. The total sales of stocks to-day were 146,114 shares, including the following: Delaware, Lackawanna & Western, 7,600; Louisville &

Nashville, 5,850; Missouri Pacific, 10,572; Northwestern, 3,500; Reading, 34,740; Richmond & West Point, 3,870; St. Paul, 23,928; Uni on Pa-

eifie, 18,950.

The stock market, to-day, was intense ly dull throughout most of the day, subject to slight spurts of animation, which only served to make the prevailing duliness worse by contrast. The lone of the dealings was a little better than usual of late, and the result of the day's operations is to leave most of the list fractionally higher than last evening's prices. London had some selling orders in the market this morning. which served to give the list a feverish appearance at the opening, which was rather weak, first prices showing declines ranging up to } per cent. There was a heavy tone to the dealings all through the first hour, though the fluctuations were confined to the smallest limits, and after the first few minutes there was little movement of any sort in the list Small osses were sustained, however, in addition to hose of the opening, in everything except with a gain of | per cent. Fort Worth & Denver was the banner weak stock, and it lost 1} per cent. on a very light business. Soon after [1] o'clock the market, while still intensely dull, ecame stronger, and toward noon a little more animation was noticeable and Missouri Pacific was prominent for its comparatively wide fluoteations. A more decidedly strong tone was developed toward 2 o'clock, when New England and Misouri Pacific showed considerable strength, though their gains were confined to fractions only. After delivery hour, however, the life all departed from the market, and while the small advances made were well sustained, there was no further movement in any direction anywhere in the list, and the mar-ket finally closed very dull, but steady, at about the best prices of the day. The cotton oil certificates were quite a feature of the day, being active at advancing prices, though their final gain was insignificant. The changes for the day are, in most of the list, in the direction of better figures, though the changes are for fractions only, except in Fort Worth & Denver, which lost lip per cent, and in Omaha, which is up 1

The railroad bond market was dull. Sales, \$1,073,000. The changes in quotations were un-

Butter dull and heavy; Western, 12@18c. Cheese dull and easy; Ohio flat, 7@8c.

CHICAGO, June L.—There was a more satisfed feeling on 'Change after the delivery hour this morning. The grain and provisions that

barrels of pork, and perhaps 10,000 tierces of lard. There was a wider interest in wheat, and the crowd was still nervous after the violens fluctuation of the previous days. Whatever experiments the manipulators performed earlier in the week as feelers appear to have strengthened the "buil" feeling in the pit. There was
such good buying to-day that shortly after noon
July, which had opened is nigher, sold lie over
the early morning price. This was done
without any very prominent "bulis" showing
a lead and without any large "short" interest to
help prices upward. The Price Current estimate
still gives little improvement in crops, and puts
the shortage at 65,000,000 bushels. But little attention was paid to cables, and very few new items
of crop news were digested. July opened at 85ic,
touched 85ic, sold up to 86ic, and back to 85ic a
number of times, and then, on a spurt, went to
86ic and on a later bulge touched 86ic, sagged
back to 86ic, reacted and closed at 86ic. There
was less manipulation and a narrower range in
the other crop futures. A very good business
was transacted in corn to-day. The feeling developed was stronger and trading was within a
higher range of prices. Receipts were smaller
than expected, and this, together with good buying by the "short" interests, advanced prices.
An active shipping demand for cash,
and the anticipation of decrease in receipts for to-morrow, were aslo bullish in the week as feelers appear to have strengthceipts for to-morrow, were aslo bullish features. Hutchinson was reported as a heavy purchaser. July opened at 55c, and with slight reactions advanced to 56te, reacted and closed at 56c. Oats were steady and firm, with prices higher, but the market, at the same time, was rather quiet. July ranged between the opening, 33je, and the closing figure, 34je 34je. In provisions the late dullness was continued, and the prevailing feeling was rather strong. Pork was weakened a little by the deliveries and offerings of June, but lard and short ribe, on the contrary, sustained a slight advance in prices. July pork opened at \$14.10, declined to \$14.07\$, and closed at the opening figure. July lard opened at 8.47\$c. advanced to 8.50c, and closed at the opening price. July short ribe opened at 7.60c, declined to and closed at

.7.57 c. The leading futures ranged as follows: Opening. Highest. Lowest. Closing. ### June ... 84% 86% 86% August ... 85% 86% 86% B5 December ... 86 86% B5 July ... 55 55% 56% August ... 55% 56% 56% September 55% 56% 34% 34% August ... 28% 28% September 27% 27% 27% June ... \$14.02% \$14.02% July ... 14.10 Wheat—June...

DUN & CO.'s REVIEW. A Lower Range of Prices for All Commodities--Failures for the Week. NEW YORK, June 1.-R. G. Dun & Co.'s re view of trade says: The past week, broken by a holiday, has brought lower markets. Lower prices for stocks and for products, dull trade, cheaper money and better crop prospects, have been its features. The exchanges continue to indicate a smaller volume of business than at this time last year, the latest returns showing a decrease of 5 per cent in which twenty cities share, including seven of the ten having the largest transactions. The improvement in crop prospects is decided. While the loss in winter wheat will still be large; a marked increase in acreage of spring wheat is reported, with favoring weather of late, and improvement in many quarters where the winter's injury was not greater. The effect upon the markets has been important. Wheat has fallen 41 cents; corn, 31 cents, and oats a fraction, hogs, 25 and lard 30 cents per 100 pounds, and oil, 62 cents. Cotton remains steady and speculation has lifted coffee ; cen t. Butter is in large supply and has fallen 6 cents; eggs are lower, and an enormous glut of vegetables has demoralized the market almost beyond precedent. Tea is still dull, with no change at auction, and the grocery trade as a whole lacks the buoyancy usual at this season. A slight improvement in grain freights, to 11d for wheat to Liverpool, indicates a better export demand since the decline in prices. There is no improvement in the iron market; indeed, the acceptance of lower prices by some Southern makers in need of money has strengthened the impression that prices will go still lower. The cotton manufacture, on the other hand, improves in outlook, and higher prices are made for print cloths and some staple goods, with an encouraging movement. No recovery is seen in woolens, but the large auction sales of flannels resulted very satisfactorily, though prices averaged per cent, lower than last year at the first, and 7 per cent lower at the second sale. The general range of prices for all commodities is 2 per cent. lower than it was May 1, with the apparent tendency toward still lower figures. Reports from the interior show comparative duliness or quiet at nearly all points. Complaints of slowness in collections are the rule, and the number of failures in May, 21 per cent. larger than last year in the United States, though smaller in Canada, shows the effect of a shrinking demand in many instances. During the next week the in many instances. During the past week the average price of stocks has declined about 70 cents per share. The market continues in the

hands of local speculators.

Business failures during the last seven days number, for the United States, 186, and for Canada 19, or a total of 205, as ecmpared with a total of 225 last week and 150 for the corresponding week of last year. There is a noticeable in-crease this week in the failures on the Pacific coast, the number there being 43, which is far above the average. The failures in the other sections of the country are light, and, as a rule, unimportant.

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore, Cincionati and Other Points. ST. LOUIS, June 1 .- Flour dull but firm. Wheat

ST. LOUIS, Jnne 1.—Flour dull but firm. Hogs—Market steady, common and light, \$4.0 5.45; packing and butchers', \$5.5005.75. Receipts, 540; shipments, 790.

INDIANAPOLIS MARKETS. Trade Singgish-Prices in the Main Firm-Money Easy. INDIANAPOLIS, June 1.

Notwithstanding the firm tone to the markets. as a rule, and the easy feeling in money circles. trade moves sluggishly, and the month opens disappointingly. The fact is that we have had no genuine summer weather as yet, and the future of the corn and hog crop depends much on the character of the weather the next sixty days. It is excellent weather for grass, but too cool for corn to grow healthily. A good corn erop means a good hog erop, both of which are the most profitable crops usually raised in this State and Illinois. In prices, to-day, there were but few fluctuations. Eggs are firm and tending higher; receipts unusually light for this season of the year. Poultry coming in freely, prices tending downward. Butter in large supply; prices weak. Early vegetables arriving in large quantities, and prices ruling weaker. Strawberries in fair supply; prices firmer than on Thursday, which is usually the case, as on Saturday there is a great demand for this fruit. Green apples are about off the market. New apples expected on the market next week. Cherman company in freely prices are about of the case. ries coming in freely, prices ranging lower. A few peaches are coming in, but sell too high to admit of there being much demand. Grocers report trade rather quiet. Coffees unchanged, but as the tone is weaker on the Eastern market a break in this market would not be a surprise. Sugars firm on the increasing demand. The wool market is dull; receipts of the new clip are quite liberal, but prices rule weak, and wool to bring our best quotations must be well washed and cleaned. Druggists are having a good trade, especially in paints and oils. Dealers in iron and tinners' supplies speak of trade as being quiet and prices a little offish. The hardware men are experiencing a brisk trade, and the lumber dealers are very busy, as well Trade with the seed men is rather slow, but better than at the corresponding period last year. In the dry goods market there is no new feat-

The local market was offish to-day, prices weak all along the line, and the bidding on 'Change was tame. Track bids to-day ruled as
